# A bounty of options

AutoDome's decade-strong tradition of excellence means that it is a proven performer with an extensive history of customer-pleasing innovation. AutoDome continues to add to its reputation for comprehensive camera surveillance by adapting and integrating the latest electronic technologies into security applications.

## AutoDome's range of options include:

- Day/Night camera, 26x and 18x optical zoom + 12x digital zoom
- Color camera, 18x and 16x optical zoom + 12x digital zoom
- Monochrome camera, 18x zoom + 12x digital zoom
- EnviroDome® models for outdoor surveillance are resistant to harsh weather conditions
- Privacy masking and sector blanking keep restricted areas hidden from view
- AutoTrack detects and follows unexpected activity to capture events as they happen
- Two styles of Guard Tours include a preset tour providing up to 99 presets, and recorded tours which have a combined duration of 15 minutes of movement
- Support for multiple protocols so AutoDomes can be seamlessly integrated with equipment from other manufacturers

## The hands-free approach to motion tracking

AutoTrack is Bosch's innovative motion tracking capability built into our AutoDome cameras. Taking motion detection to the next level, AutoTrack not only senses movement but also follows it, leaving guards' hands free to tackle other responsibilities. No more missing the action. No more focusing on an intruder only to have him walk out of the frame.

AutoTrack detects motion, zooms in on the target and tracks it. AutoDome with AutoTrack is the ultimate security solution for any application that requires immediate motion detection and action, whether it's a prison, school, airport, commercial or retail environment.

## Excellence through innovation

The Bosch reputation for quality is embodied in AutoDome camera systems, consistently delivering quality imaging through a host of remarkable standard features and innovative options with superior reliability and image resolution.

The superior surveillance of AutoDome is employed throughout the world in a wide variety of applications.

- Shopping centers and stores
- Banks
- Warehouses
- Industrial parks
- Highways and parking areas
- Large estates
- Hotels and casinos
- Airports
- Government offices and facilities

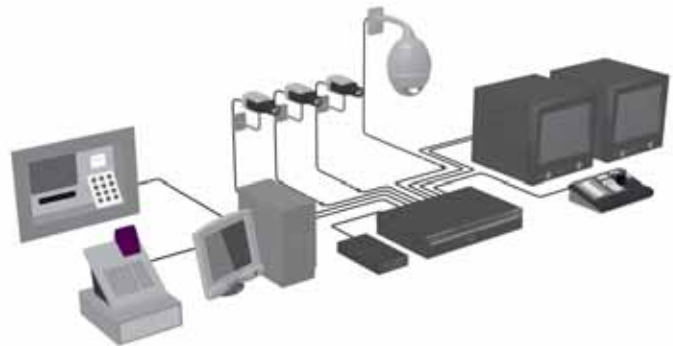

AutoDome cameras, options and accessories provide picture perfect imaging under all circumstances and conditions. Simply put: AutoDome remains the industry standard for excellence, innovation, quality and performance.

Bosch AutoDome systems are designed and engineered from top to bottom with the customer in mind, making them the best solution for virtually every environment.

### Part of a totally integrated system

All AutoDome camera systems easily integrate with the entire line of Bosch surveillance products, including Divar digital versatile recorders, Allegiant matrix switchers and Unity prepackaged fixed cameras. AutoDome, combined with our complete line of products, lets you design a low-maintenance, integrated CCTV system for any application from one reliable manufacturer.

### Bilinx controls AutoDomes over the video cable

AutoDome cameras incorporate Bilinx bi-directional communications. Embedded in the video signal, this innovative Bosch technology allows operators or technicians to check camera status, change camera settings and update firmware from virtually anywhere along the standard Coax or Passive UTP video cable. No additional wiring is required. Bilinx is a major time and labor saver, especially when cameras are difficult to reach for hands-on servicing or in environments where surveillance interruption is not permitted.

▲ Experience the superior performance of AutoDome from your computer. Log on to [www.autodome.com](http://www.autodome.com) and check out the online demo videos. Browse the various AutoDome systems and choose the right one for your application. Follow the *Request Info* link and you can order our **FREE AutoDome Demo CD**. You'll quickly see why AutoDome is the camera system of choice!

## EnviroDome

### Outdoor Systems

Bosch EnviroDome cameras are the ideal solution for perimeter surveillance, parking lots and other outdoor applications. Day/night cameras automatically switch from color to monochrome when light levels decrease for extra sensitivity, while high-resolution cameras with optical zoom up to 26x get the finest detail. For extreme conditions, a pressurized version is available. Whatever the weather may bring, from rain to snow to sunshine, EnviroDome maintains peak performance.

## AutoDome

### Indoor Systems

Indoors, nothing beats the AutoDome. Its small size makes it inconspicuous. Automatic functions eliminate guesswork and make for easy operation. And it offers all the features you need to monitor everything from schools to offices, shopping malls to casinos. Camera options include a day/night version with 26x or 18x zoom that lets you focus on details other cameras are missing. Plus AutoTrack allows hands-free motion tracking, so you see it all. The wide variety of mounting options lets you place cameras in the most effective locations throughout your building.

## BasicDome

### Economical Systems

The BasicDome camera is the affordable surveillance solution for indoor security applications. It offers faster, quieter and smoother operation than ever before for a dome in this price range. The BasicDome is the perfect choice for those who want the assurance of quality at an affordable price.

## Pressurized Dome

### Environmental Systems

The pressurized dome housing unit protects the AutoDome camera from the elements, both natural and manmade. It is the ideal surveillance solution for applications which require frequent wash-down including traffic, transit, bridges, tunnels and coastal installations where salt, moisture, dust, insects and fumes threaten the long-term operation of the camera. The pressurized dome is the ultimate way to protect your surveillance camera investment from the environment.

### Bosch has the most complete line of options and accessories in the industry.

The AutoDome line offers all the accessories you need to complete the installation, including all types of indoor and outdoor mounts, special bubbles to match and complement the surroundings, power supplies and fiber optic versions. For high-risk areas, we also offer a rugged bubble to protect your AutoDome camera against vandalism.

### Benchmark reliability and quality

AutoDome Camera Systems are solid products from Bosch Security Systems, a security industry leader. AutoDome has an excellent reputation for impeccable image quality and maintenance-free operation, as evidenced by thousands of installations worldwide. If a facility needs camera surveillance, you need AutoDome. Contact your local dealer to get more information about how to integrate AutoDome into your security network today.
